## **Phonics**

Come and sit here. Look at the sun come up.

The sun is up a little bit. What  $\underline{\text{time}}$  is it  $\overline{\text{now}}$ ? It is  $\underline{\text{five}}$ .

How did the sun get that size? What time is it now? It's six.

Now it is <u>nine</u>. Come on, we can <u>hike</u>.

We got to <u>the</u> top! Look at the sun <u>now!</u>
<u>How</u> did it get there?

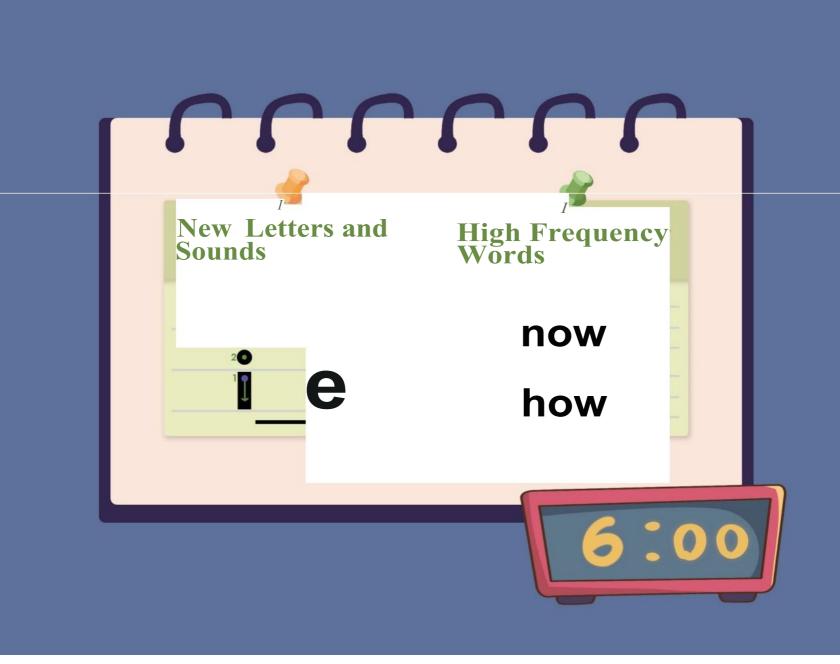

When <u>did the</u> sun get there? And <u>how</u> did it get there?
